3. Buffer Zone for School

- We discussed the possibility of requesting a 1 km buffer zone prohibiting the spraying of chemicals whether school was in session or not.
- There was discussion around the size of a buffer zone, when the buffer zone would be in effect and the process for requesting something like this.
- It was decided that the school will ask the neighboring farmers to notify the school if they are spraying pesticides during hours when children would be at the school *and ask them if they could not spray during the hours of 8 a.m. to 4 p.m. on school days.*
