April 2023

Principal's Message

Spring is in the air! What a wonderful time of year when the snow melts and the sun shines. At Wild Rose we are working hard to finish up the school year strong. Thank you all for joining us for progress conferences last month to discuss your child's growth. Our students are working hard on literacy by strengthening both their reading and writing skills. Teachers are incorporating Story Workshop in their writing time and it seems to be a hit with students! Thank you to the SCC for supporting us with this project.

Our grade 3-4 class had a chance to help with raising our tipi in the library after the book fair. They did a great job and learned more about the Tipi Teachings. This month, we will discuss the teaching of Kinship. In the Cree language, wâhkôhtowin means kinship. It refers to the concept that everything in creation is related. It is also about recognizing and valuing those people who are important to you and provide you with a sense of belonging. We hope that all of our Wild Rose students and families feel a sense of kinship and connection at our school. It is truly an amazing place to be. Finally, I have some exciting news to share. Wild Rose was the recipient of a Participaction Grant that will allow us to offer some virtual dance classes during PE this spring. We also received funds to purchase some additional cross-country ski equipment so we can get out with classes next winter and enjoy some skiing. Thanks to the Government of Canada who made this project possible.

Happy Easter!
Mrs. Grant-Walker
